- ✓ *Theoretical training*
- ✓ *Engaging trainers with years of experience*
- ✓ *Online or In Person*

**Our team will listen to your vision for your church and work with you to develop the best training session(s) for your church.**

## SESSIONS AVAILABLE

### Sharing the Gospel

Many of us know what we believe, but fumble for words when someone asks us about Jesus. This session takes a look at some key principles for sharing our faith.

*Great for adults, youth, children's ministry workers or children.*

### How Young People Learn

Standing in front of a group of children and reading off the lesson isn't going to cut it! As leaders we should inspire children, actively involve them in learning, recognize different learning styles, and realize that it is okay to have an awkward \*pause\* before children respond to our questions (they need time to process!).

*Great for youth and children's ministry workers.*

### The BIG Bible Story

From Genesis to Revelation the Bible is filled with great stories! Together, we examine the Bible timeline (broken down into easy-to-remember themes) and consider how we fit into God's Big Story!

*Great for all ages*

### Read. Pray. Love

Our lives, churches and communities have the ability to be transformed when we spend more time in the Word. Come discover ways to make your Bible reading more meaningful and how it can change your life, church, and ministry group. All participants will leave with a Bible Guide.

*Great for all ages*

### Journey of Faith

Everyone is on a journey of faith. Believing (conversion), belonging (to a body of believers) and becoming (more like Christ). How can we help children in our church take a step forward in their journey of faith.

*Great for adults, youth, and children's ministry workers.*

### Answering Kids Big Questions

Kids ask many great questions. How we respond to their questions is important! What are some key steps to take in response to a big question? Hint: our first response isn't to answer it! In addition to going through how to answer questions, we look at the 7 key themes most questions fall under (in a church setting) and how we can answer them Biblically.

*Great for children's ministry workers.*

*Great for children's ministry workers.*

### Leading Children

How you connect with the children is key. A good leader knows how to engage, excite and encourage children so that they want to be a part of the session. Engage – building relationships. Excite – bringing hype (even if you're not a "hype" person). Encourage – good behaviour and discipline.

*Great for children's ministry workers.*

### Kids Can Read the Bible Too!

The children at your church can each have their own Bible, bring it every Sunday and read the Bible story straight from the Word! Discover how to help children learn to use their Bible, understand it and apply it to their lives!

*Great for children's ministry workers and parents.*

## SESSIONS AVAILABLE CONTINUED

### Discipling Children

Understanding what it means to disciple children and why it is vital for the health, growth and maturity of the church.

*Great for children's ministry workers and parents*

### Team Building

Strengthen your youth group, church board or ministry volunteers with a fun, team building session. A series of activities will focus on improving team communication, trust and collaboration. The session will work through Scripture passages that address teamwork.

*Great for youth groups and ministry teams.*

### Discipline and Restoration

Looking for some help with classroom management? Want to prepare your volunteers to deal with issues or disruptions or disrespect? What should discipline in the church actually look like?

*Great for children's ministry workers.*

### Custom Session

Chat with our team to determine the best single session (or full day) to offer to your team.

*Sessions available in Bible reading, children's ministry and sport's ministry.*

### Learning Through Games

Discover how to use experiential learning in your ministry. Teaches you what experiential learning is, what is the learning process, how to run and design your own experiential learning session.

*Great for youth, and children's ministry workers.*

### Every Kid Can

Looking at different disabilities such as: physical, mental, developmental, intellectual, learning/processing and long term disabilities. Understanding how we can be sensitive, inclusive and supportive of those with disabilities and break down any barriers that may prevent them from attending our church or being involved in children's ministry..

*Great for Sunday School teachers, camp volunteers and more.*

### Family Ministry

Faith formation is a 24/7 process of being formed, transformed, and conformed to be like Jesus. Because it's a lifelong pursuit, it can't be scheduled or compartmentalized. Reducing it to a church program or a curriculum for a family to work on at home is inadequate. Faith formation should be a pulse in the happenings of everyday life.

*Great for parents and children's ministry workers.*
